PROFESSIONAL SUMMARY

Strategy and insights professional with 6+ years of experience across video media, growth marketing, and market research in U.S. and LATAM startups. Co-founder of Blackdog, a creator monetization company that turns YouTube performance and sponsorship data into pricing, sales, and content decisions for 20 motorsports creators, across 300+ signed brand deals worth US\$2.3M with 90 brands such as Aprilia, Insta360, and DJI. Builds, with engineering, insights tools and dashboards that combine first- and third-party data to surface new sales opportunities. Experienced in media measurement (views, engagement, watch time, CPM) and in translating data into narratives for creators, brand CMOs and investors.

PROFESSIONAL EXPERIENCE

BLACKDOG | Co-founder & Director of Operations | Bogotá (remote, U.S.-registered)

Mar 2023 – Present | Creator marketing and sponsorship company representing 20 motorsports YouTube creators.

- Oversaw 300+ signed sponsorship deals (US\$2.3M gross value) end to end, including campaign measurement and results reporting to brand partners, across 1,500+ published deliverables that generated 106M+ views.
- Grew annual signed deal value 2.9x from 2023 to 2025 and doubled average deal value from 2023 to 2026 (US\$4.9K to US\$9.9K); 48 of 90 brand partnerships renewed deals.
- Designed an internal insight platform with dashboards on creator performance (views, engagement, watch time), CPM-based pricing gaps, and sponsorship inventory, used to spot sales opportunities, adjust pricing and optimize content, currently tracks 60 active deals across 30 brands.
- Built with engineering, an AI-powered market intelligence tool that detects brand sponsorships across YouTube videos (YouTube Data API + Anthropic API). It has analyzed 585 videos and surfaced 84 sponsoring brands as prospects.
- Designed and launched the Aprilia Creator Grand Prix, a multi-partner campaign that embedded codes in 10+ minute videos to drive participation and watch time. The 2025 season delivered 79 videos, 3.1M views, 1,190 active participants across the U.S., 137K likes, and 4.44% avg engagement.

- Launched with engineering a conversational AI assistant used by the team to manage creator and brand relationships, track deals, and follow up on pending deliverables.
- Led the platform's evolution from a no-code prototype built in [Bubble.io](#) to a production system, driving adoption across a distributed non-technical team.
- Managed brand and creator contracts, including data-protection terms, and handled U.S. tax compliance and corporate governance with external legal and accounting advisors.

WANNABE | Co-founder & Head of UX/UI | Mexico City (remote)

Aug 2021 – Feb 2023 | HR tech startup backed by 500 Global (Batch 17) and Platanus Ventures.

- Led sales pitches and product demos for B2B companies, converting 6 paying clients.
- Pitched the company at 500 Global's Batch 17 Demo Day to 20 investors and co-led a US\$130K fundraise from 500 Global LATAM, Platanus Ventures, and angel investors.
- Led market and user research to shape the product vision and turn research findings into product decisions and a clear commercial narrative.
- Built relationships with investors and ecosystem partners across Mexico and Chile and helped grow the team to 6 people.

KREW | UX/UI Lead | London (remote)

Jun 2021 – Dec 2021 | AI-powered live fitness startup backed by Entrepreneur First (US\$1.6M seed).
